EDUCATION

School	Study	Result
Ghent University	Civil Engineer - Master	Graduated 2000 – Magna Cum Laude.
SAP BeLux	Certified ABAP Developer	2004

Experience & Achievements

COLRUYT / DREAMLAND / DREAMBABY	
Period	06/2019 – Current (Free 1 st June 2020)
Function	SAP Senior Expert ABAP / FIORI S4/HANA Full Stack Developer (Freelance / Contractor)
Tasks	With over 20 years SAP ABAP experience on 13 SAP implementations, of which 8 full lifecycles, I fulfilled both technical and technical management roles in multi-lingual SAP projects in Europe, US and ASIA. As a certified SAP ABAP / S4HANA Consultant I gained an extensive experience in: - ABAP programming and development In eWM, WM, MM, SD, FI-CO, SAP RETAIL, PP, SCM-APO/DP. Also Team Lead experience is a large part of my resumé. Here a list of my technical domains : • Workflow Development. • Core ABAP / Data dictionary. • ALV / Dialog programming. • Business Object Programming • ABAP OO Programming, • BAPI, RFC, Function Module Programming. • From Scratch Programming • Modular / Screen Programming • Interface Programming, ALE, API, j'son, XML Creation • Enhancements, User exits, Enhancement spot, BADI, Screen-Exits, • Smartforms, Sapscrip, Adobe Interactive Forms (PDF Forms) • IDOC's, LSMW • WEB Dynpro. SAPUI5, FIORI APPS on S4-HANA Development Backend & Frontend • CDS Views • Eclipse Development / Transactional Development (SE80, ... SE....) etc.... • SPROXY • Sap Portal • ESB In this project the following technologies were used: Database Updates, Performance Tuning, Migration and Interfaces (BAPI, RFC's, IDOC), Dialog Programming, Report development with interactive (ALV) Lists and Object Oriented ABAP programming, Business Object Programming, Interfacing with 3th party programs and tools, Enhancements, Modifications and Adobe Forms development, PDF conversion via ABAP. API development with external/legacy software, Office integration, FIORI Apps, OData, CDS Views etc ... ABAP developments for this project covered SAP modules SD/FI/CO/MM/PP/PM/WM/eWM/FCAST/Replentishments. But also hands-on modifications, etc... BAPI's, Enhancements,BADI's and User-Exits , Object Oriënted Programming, Modifications. Etc ...
OS	Windows X, Windows Server X, LINUX
Tools & Technologies	SAP Netweaver technology, SCM , HANA DATABASE, FIORI, Eclipse.

DECATHLON – FR (VIA CGI - FRANCE) – SCM-APO / BI / BW / FSCM	
Period	12/2018 – 06/2019
Function	SAP Senior Expert ABAP / FIORI Full Stack Developer (Freelance / Contractor)
Tasks	With over 20 years SAP ABAP experience on 13 SAP implementations, of which 8 full lifecycles, I fulfilled both technical and technical management roles in multi-lingual SAP projects in Europe, US and ASIA. As a certified SAP ABAP Consultant I gained an extensive experience in: - ABAP programming and development. Here a list of my technical domains : • Workflow Development. • Core ABAP / Data dictionary. • ALV / Dialog programming. • Business Object Programming • ABAP OO Programming, • BAPI, RFC, Function Module Programming. • From Scratch Programming • Modular / Screen Programming • Interface Programming, ALE, API, j'son, XML Creation • Enhancements, User exits, Enhancement spot, BADI, Screen-Exits, • Smartforms. • Sapscrip. • Adobe Interactive Forms • IDOC • LSMW • WEB Dynpro. SAPUI5, FIORI APPS Development Backend & Frontend • Sap Portal • ESB As a certified ABAP/4 workbench consultant I needed to perform in this project, Database Updates, Performance Tuning, Migration and Interfaces (BAPI, RFC's, IDOC), Dialog Programming, Report development with interactive (ALV) Lists and Object Oriented ABAP programming, Business Object Programming, Interfacing with 3th party programs and tools, Enhancements, Modifications and Adobe Forms development, PDF conversion via ABAP. API programming with external software, Office integration, FIORI Apps, OData. I have written also optimizer programs for Transport Lanes, Transport Costs based on the Genios Solver classes in SAP for Optimization of the Supply chain Transportation management. ABAP developments for this project covered SAP modules SD/FI/CO/MM/PP/PM/WM/eWM/APO/FSM. But also hands-on modifications, etc... BAPI's, Enhancements,BADI's and User-Exits , Object Oriënted Programming and modifications
OS	Windows X, Windows Server X, LINUX
Tools & Technologies	SAP Netweaver technology, SCM , S4 HANA DATABASE

ENGIE – UK, BE, FR (VIA CAPGEMINI) – IS/U	
Period	06/2016 – 12/2018
Function	SAP ABAP Senior Developer (Freelance / Contractor)
Tasks	With over 20 years SAP ABAP experience on 12 SAP implementations, of which 6 full lifecycles, I fulfilled both technical and technical management roles in multi-lingual SAP projects in Europe, US and ASIA. As a certified SAP ABAP Consultant I gained an extensive experience in: - ABAP programming and development FI/CO/RAR/AP/AR / IS-U. Here a list of my technical domains : • Workflow Development. • Core ABAP / Data dictionary. • ALV / Dialog programming. • Business Object Programming • ABAP OO Programming, • BAPI, RFC, Function Module Programming. • From Scratch Programming • Modular / Screen Programming • Interface Programming, ALE, API, j'son, XML Creation • Enhancements, User exits, Enhancement spot, BADI, Screen-Exits, • Smartforms. • Sapscript. • Adobe Interactive Forms • IDOC • LSMW • WEB Dynpro. SAPUI5, FIORI APPS Development Backend & Frontend • Sap Portal • ESB As a certified ABAP/4 workbench consultant I needed to perform in this project, Database Updates, Performance Tuning, Migration and Interfaces (LSMW, Batch Input, BAPI, RFC's), Dialog Programming, Report development with interactive (ALV) Lists and Object Oriented ABAP programming, Business Object Programming, Interfacing with 3th party programs and tools like Brainware, Basware, IXOS, Enhancements, Modifications and Adobe Forms development, PDF conversion via ABAP and Merging PDF Invoices with Attachments to send electronically to Customers and Vendors as one document via SAP. API programming with external software, Office integration, FIORI Apps, OData ABAP developments for this project covered SAP modules FI/CO/AR/APMM/PP/PM/SD/MM. But also hands-on modifications, etc... BAPI's, Enhancements,BADI's and User-Exits on AP & AR / GL / AA
OS	Windows X, Windows Server X, UNIX
Tools & Technologies	SAP Netweaver technology, ECC6, HANA DATABASE

ARCELORMITTAL – FR	
Period	09/2014 – 05/2016
Function	SAP ABAP Senior BI/BW Developer (Freelance / Contractor)
Tasks	With over 18 years SAP experience on 11 SAP implementations, of which 6 full lifecycles, I fulfilled both technical and technical management roles in multi-lingual SAP projects in Europe, US and ASIA. As a certified SAP ABAP Consultant I gained an extensive experience in: - ABAP programming and development. Here a list of my technical domains : • Workflow Development. • Core ABAP / Data dictionary. • ALV / Dialog programming. • Business Object Programming • ABAP OO Programming, • BAPI, RFC, Function Module Programming. • From Scratch Programming • Modular / Screen Programming • Interface Programming, ALE, API, j'son • Enhancements, User exits, Enhancement spot, BADI, Screen-Exits, • Smartforms. • Sapscrip. • Adobe Interactive Forms • IDOC • LSMW • WEB Dynpro. • Sap Portal • ESB Good Functional Knowledge: FI-CO/SCM-APO/MM/SD/MM/PM/PP/CRM As a certified ABAP/4 workbench consultant I needed to perform in this project, Database Updates, Performance Tuning, Migration and Interfaces (LSMW, Batch Input, BAPI, RFC's), Dialog Programming, Report development with interactive (ALV) Lists and Object Oriented ABAP programming, Business Object Programming, Interfacing with 3th party programs and tools, Enhancements, Modifications and Webdynpro development. ABAP developments for this project covered SAP modules SCM-APO/SD/FI/CO/MM/PP - BI/BW. But also hands-on modifications, etc... BAPI's to change Procurement Relationships and BADI's to update Customer master and Vendor master related data, Enhancements and User-Exits on AP & AR.
OS	Windows X, Windows Server X, UNIX
Tools & Technologies	SAP Netweaver technology, ECC6, ORACLE DATABASE

MERIDIAN GLOBAL SERVICES - UK / IRELAND	
Period	09/2013 – 08/2014
Function	SAP ABAP Development Team Lead (Freelance / Contractor)
Tasks	With over 17 years SAP experience on 10 SAP implementations, of which 6 full lifecycles, I fulfilled both technical and technical management roles in multi-lingual SAP projects in Europe, US and ASIA. As a certified SAP ABAP Consultant I have an extensive experience in: • Workflow Development. • Core ABAP / Data dictionary. • ALV / Dialog programming. • Business Object Programming • ABAP OO Programming, • BAPI, RFC, Function Module Programming. • From Scratch Programming • Modular / Screen Programming • Interface Programming, ALE, API, J'son • Enhancements, User exits, Enhancement spot, BADI, Screen-Exits, • Smartforms. • Sapscript. • Adobe Interactive Forms • IDOC • LSMW • WEB Dynpro. • Sap Portal • ESB Good Functional Knowledge: FI-CO/SCMAPO/MM/SD/MM/PM/PP As a SAP ABAP Development team leader I was responsible for a team of 5 developers which were divided in the different modules of SAP. I was responsible for the performance of the team and reporting went to the project manager. I made use of Scrum methods which worked perfectly for this project. I had to divide the work among the developers and followed-up closely their progress and made adjustments to their schedule where necessary. ABAP developments for this project covered SAP modules MM/SD/eWM/FI-CO/TAX. I made modifications to the standard SD processes and Used Function Modules modifications on interactive planning, etc... BAPI's to change procurement relationships and BADI's to change MRP related data, Procurement relationship data, reporting on MRP, Enhancements and User-Exits on Demand Planning.(DP) in APO
OS	Windows X, Windows Server X
Tools & Technologies	SAP Netweaver technology, ECC6, SQL-Database

HEWLETT PACKARD - IRELAND	
Period	2012 – 09/2013
Function	SAP ABAP Developer (Freelance)
Tasks	With over 15 years SAP experience on 5 full lifecycle SAP implementations, I fulfilled both technical and project management roles in multi-lingual SAP projects in Europe, US and ASIA where I gained extensive experience as a Certified SAP ABAP Consultant in ABAP programming. The technical domains I cover are: • Workflow Development. • Core ABAP / Data dictionary. • ALV / Dialog programming. • Business Object Programming • ABAP OO Programming, • BAPI, RFC, Function Module Programming. • From Scratch Programming • Modular / Screen Programming • Interface Programming, ALE, API, j'son • Enhancements, User exits, Enhancement spot, BADI, Screen-Exits, • Smartforms. • Sapscript. • Adobe Interactive Forms • IDOC • LSMW • WEB Dynpro. • Sap Portal • ESB Good Functional Knowledge: FI-CO/SCMAPO/MM/SD/MM/PM/PP As a certified ABAP/4 workbench consultant experienced in Database Updates, Performance Tuning, Migration and Interfaces (LSMW, IDOC, Batch Input, BAPI, RFC), Dialog Programming, Report development with interactive Lists and Object Oriented ABAP programming, Interfacing with 3th party programs and tools, Sap Query and Logical Databases, Enhancements, Modifications and "from scratch" programming. The ABAP developments of this project cover SAP modules MM/SD/PP /FI-CO. Implementations of BADI's, BAPI's for interfacing with modules FI/CO, Creating new programs to update existing tables and adding more functionality to existing programs, Enhancement implementations and interfacing with third-party software. LSMW, Batch Input and Mass update from legacy data in to Sales tables.
OS	UNIX, Windows X, windows Server X,
Tools & Technologies	SAP Netweaver technology, ECC6, Oracle Database, MAXDB.

INTEL - IRELAND	
Period	2009 – 2012
Function	SAP ABAP Developer Team Lead (Freelance)
Tasks	Specialized in ABAP programming, Interfacing and development Sap Netweaver. Has good functional knowledge of the FI/CO and MM/SD modules. Here a list of his technical domains : • Workflow Development. • Core ABAP / Data dictionary. • ALV / Dialog programming. • Business Object Programming • ABAP OO Programming, • BAPI, RFC, Function Module Programming. • From Scratch Programming • Modular / Screen Programming • Interface Programming, ALE, API, j'son • Enhancements, User exits, Enhancement spot, BADI, Screen-Exits, • Smartforms. • Sapscript. • Adobe Interactive Forms • IDOC • LSMW • WEB Dynpro. • Sap Portal • ESB Good Functional Knowledge: FI-CO/SCMAPO/MM/SD/MM/PM/PP • Few experience in SAP Phone As a SAP ABAP Development team leader I was responsible for a team of 12 developers. I was responsible for the performance of the team and reporting went to the Project Leader. I had the experience to work with a great team which was hired especially for the tasks that needed to be performed This project concerned major changes to the standard SD flow and modifications. Integrations with FI/CO and SD/MM on 25 different development systems within SAP. Creation of enhancements and enhancement spot implementations. BADI's, BAPI's for interfacing with modules MM / PP / WM, Creating reports for SD and FI/CO
OS	UNIX, XP, windows Server X
Tools & Technologies	SAP Netweaver technology, ECC6
Databases / Application Server	Sun/Solaris server, OS UNIX, DB Oracle

NATIONAL RAILWAYS– BELGIUM	
<i>Period</i>	2002 – 2009
<i>Function</i>	SAP ABAP Consultant (Freelance)
<i>Tasks</i>	Specialized in ABAP programming, Interface programming and general development in SAP Netweaver. Good functional knowledge of the MM/SD/SCM/FI/CO modules. • Workflow Development. • Core ABAP / Data dictionary. • ALV / Dialog programming. • Business Object Programming • ABAP OO Programming, • BAPI, RFC, Function Module Programming. • From Scratch Programming • Modular / Screen Programming • Interface Programming, ALE, API, j'son • Enhancements, User exits, Enhancement spot, BADI, Screen-Exits, • Smartforms. • Sapscript. • Adobe Interactive Forms • IDOC • LSMW • WEB Dynpro. • Sap Portal • ESB Good Functional Knowledge: FI-CO/SCMAPO/MM/SD/MM/PM/PP
<i>OS</i>	Windows NT – Windows XP
<i>Tools & Technologies</i>	SAP Netweaver technology
<i>Databases / Application Server</i>	Sun/Solaris server, OS UNIX, DB Oracle, ABAP/4

CAP GEMINI – THE NETHERLANDS	
<i>Period</i>	01/06/2001 – 30/04/2002
<i>Function</i>	R/3 4.6 ABAP developer for an international Car Company in Antwerp in Module SD – Reporting, writing reports, interfacing with external programs, BDC Sessions, LSMW.
<i>Tasks</i>	Writing programs (lists, reports), Smartforms, Sapscrip for MM, SD, PM, WM and PP environment in SAP.
OS	Windows 2000 / UNIX / DB2
<i>Period</i>	01/11/2000 – 30/05/2001

EXXONMOBIL CHEMICAL – HOUSTON TEXAS	
<i>Period</i>	31/10/2000 – 01/06/2001
<i>Function</i>	R/2 SAP ABAP Consultant (Freelance)
<i>Tasks</i>	Part of a project team building an interface between AS/400 application and a Client-Server Application with the help of Shadow - Direct, (interface Mainframe - Server) In this case with the help ABAP/4 (Between LAN - GUI & SAP R/2)
OS	Windows NT – Windows 2000 – UNIX
Tools & Technologies	SAP R/2
Databases / Application Server	DB2 / SAPDB

EXXONMOBIL	
<i>Period</i>	21/03/1999 – 31/10/2000
<i>Function</i>	R/2 SAP ABAP Consultant (Freelance)
<i>Tasks</i>	Part of a project team building an interface between AS/400 application and a Client-Server Application with the help of Shadow - Direct, (interface Mainframe - Server) In this case with the help ABAP/4 (Between LAN - GUI & SAP R/2)
OS	Windows NT – Windows 2000 – UNIX
Tools & Technologies	SAP R/2
Databases / Application Server	DB2 / SAPDB

EXXON CHEMICAL (FOR DOLMEN COMPUTER APPLICATIONS)	
<i>Period</i>	01/12/1998 – 31/10/1999
<i>Function</i>	Database Administrator Consultant (Freelance)
<i>Tasks</i>	Automation of a Mobius - Database. (INFOPAC) The purpose was to develop an analyzing tool which sends information to secured datasets in the SAP DB2 Database, picked up by an interface (P2P) scheduled several times a day. feeds the database with extracted and analyzed information.
OS	Windows NT
Tools & Technologies	SAP R/2
Databases / Application Server	DB2

DOLMEN ENGINEERING	
<i>Period</i>	01/08/1996 – 30/11/1998
<i>Function</i>	Visual Basic – Screen Builder
<i>Tasks</i>	Development of GUI for Dolmen Engineering. Building a graphic user interface for secretaries their internal CICS systems.
OS	Windows 98
Tools & Technologies	Visual Basic, SQL-Server
Databases / Application Server	SQL-Database

COMPETENCES

<i>Practical Experience</i>	SAP R/3 – SAP Netweaver Development – Most of my experience is in the FI/CO modules although my carrier started in SD and CRM I've grown from home-out to specialize myself in Finance and Controlling. Brother: financial director Volkswagen Germany. Father TAX specialist 45-years exp. Mother: Banking.			
<i>Basic Knowledge</i>	DB2 Microsoft Windows 9x, Windows XP, Windows NT, Windows 2000 Professional, Windows XP, Windows 2000 Server, Windows 2003 server Microsoft Office products – MS project VMware
